**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1-12. (Canceled)

13. (Currently Amended) A concealed telephone system, comprising:  
a telephone (12, 52) including a keyboard and display that can make and receive telephone calls;  
a pair of glasses (16);  
an earpiece (14, 54) that provides audio signals from the telephone to an ear of a user, said earpiece being integrated within a sidepiece of said pair of glasses;  
a switch for activating functions of said telephone, said switch being integrated within said sidepiece of said pair of glasses; and  
a microphone (22, 56) that receives voice signals from the user and provides them to the telephone, wherein each of the telephone, earpiece, and microphone include short-range wireless transceivers (18, 20, 24) for transmitting signals therebetween.

14-15. (Canceled)

16. (Previously Presented) The concealed telephone system of claim 13, wherein the microphone is concealed within an article of jewelry.

17. (Previously Presented) The concealed telephone system of claim 13, wherein the telephone provides the ambient noise picked up by the microphone to the earpiece when the telephone is not in use.

18. (Previously Presented) The concealed telephone system of claim 13, wherein said pair of glasses includes eyeglasses and sunglasses.

19. (Currently Amended) A concealed telephone system, comprising:  
a telephone (12, 52) including a keyboard and display that can make and receive telephone calls;  
an earring;  
a bracelet;  
an earpiece (14, 54) that provides audio signals from the telephone to an ear of a user, said earpiece being integrated within said earring; and  
a microphone (22, 56) that receives voice signals from the user and provides them to the telephone, said microphone being integrated within said bracelet, wherein each of the telephone, earpiece, and microphone include short-range wireless transceivers (18, 20, 24) for transmitting signals therebetween, wherein said earpiece creates at least one of a tone or vibration when a telephone call has been received by the telephone.

20. (Previously Presented) The concealed telephone system of claim 19, wherein the telephone provides the ambient noise picked up by the microphone to the earpiece when the telephone is not in use.

21. (New) The concealed telephone system of claim 13, wherein said switch is operable to answer a telephone call to said telephone.
